April 1, 2016

# ImagineAbility Ink

**Please note, the ImagineAbility April Fool's Social has been cancelled due to lower than expected ticket sales.**

## Disability Matters

I have been helping out with Disability Matters Vote 2016 by handing out brochures. This lets people know about the issues for Manitobans with disabilities. The issues are: Accessibility, Fair Wages, Access to Services, Employment and Dignified Income.

I took pictures of some of the people I talked with.

On April 19th, remember to exercise your right to vote!

- Sherry Schumardo

## ImagineAbility Social Committee Garden Fundraiser

**Orders Due: April 6**

**Delivery to 500 Madison: May 13**

**Orders can be picked up that afternoon!**

... AND FROM THE  
... AGINEABILITY STAFF  
... CIES BUT WILL NOT  
... SION.

## Focus on Priority Issues—A Fully Accessible Manitoba

Manitobans with disabilities have the basic human right to participate in all aspects of public life such as work, study, shopping and recreation. However, people with disabilities continue to face serious obstacles that prevent full participation in parts of life that most Manitobans take for granted.

Despite the unanimous Legislative Assembly support of The Accessibility for Manitobans Act in 2013, that was intended to close the gap between these human and legal rights and the lived reality of Manitobans with disabilities, only 1/5 of promised increased standards have been developed. At this rate, it will take ten full years until this set of standards is implemented.

The Manitoba Government has not developed a plan to monitor and enforce compliance with the Act, which will affect over 36,000 organizations in Manitoba.

The Government has not provided any resources to disability communities to support research and consultation to ensure Manitobans with disabilities have appropriate access to technical and legal resources.

### Questions for the Parties:

Is your party committed to the full and timely implementation of the Accessibility for Manitobans Act (AMA) that was passed with all party support in December 2013?

Will your party commit to establishing standards in the following areas during the next term in office: employment, transportation, information and communication, and built environment?

What will your party do to ensure that organizations follow the standards that are developed? (<http://www.disabilitymatters2016.ca/priority-issues>)

(We will cover the other priority issues in the next newsletter)
