The Peace
 Jamie C

GOOD MORNING EVERYONE! It is such a wonder but still it doesn't matter about what pain that we experience and have a good time. Right now at this very moment and it all starts with our next generation. They are wonderful and our inspiration to be someone important, or to be their dreams and to not ever give up.

It is a changing year and is becoming more and more playing Pokémon on the streets and this is what almost everyone does. Here is an idea. Why not try to introduce a different game. It can be cards like a game of go fish, war or perhaps like chess or checkers, scrabble or Chinese checkers or no money game of poker. I sometimes play a friend and games involve strategy and if there were no more video games would play one of those other games.

I know that I have talked about doing activities with the younger generation. There are art activities like origami on the side. This can help them in the future to have doors open (I was younger I did not like to have anything to do with art, I talk about that). Now I love art and music, poetry and writing are gifts that some will find out that they did not know they had the gift of writing. And I found out that last year June

Eventually if we cannot unlock these gifts that we have as artists. I play the piano and when I have my own little child. Even if a little one cannot play, it is still art in a subtle way, gift slowly.

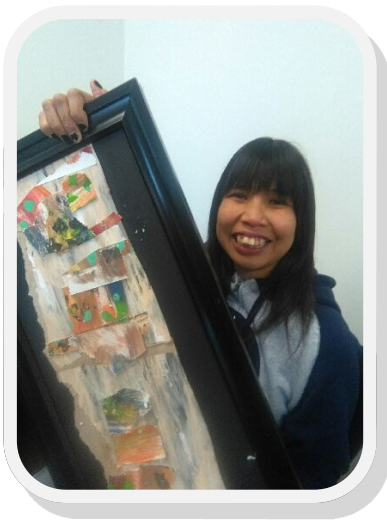

Yes our little ones are the most greatest artist of all. The greatest art that they create is the everlasting love that they give us very much that recently I had thanked her for giving me my mother. That is the greatest art that any parent or child can create, natural art. It forms bonds and friendship, and it can keep us moving. This is a godly art that cannot be taught. If they have not ever experienced love, they are wrong. If they have never had a form of family. It is as Vin Diesel said in *The Fast and the Furious*. And that is the truth. Love is the greatest artist of all. The greatest art that them being alive is art. The same goes with us. If anyone is beautiful, you are a piece of art in their eyes. To me, my mother is art and nothing will be more beautiful than her.

So please introduce your children to music and art. I thank you everyone for reading my article. My hope is that is within this very world. Thank you and have a
