

Meaningful Employment

ImagineAbility's Community Based Services offers people individualized support to seek paid employment, explore old and new interests as well as facilitate connections in the community. We focus on a person's abilities and celebrate their individual attributes. Our goal is to empower the people we support to access the many possibilities available in our City.

"Having a work placement has helped me learn the skills to work as a line cook, allowing me to learn about a different culture and make new friendships."

-Ken Brisebois - Mooshiro Sushi

Community Involvement

Through various community partnerships, we embrace the spirit of 'giving back'. We continue to discover new volunteer opportunities that allow for an integrated experience.

If you have or know of any opportunities, please contact us :

Community-Based Services

Our primary objective is to work with individuals to develop meaningful days that are structured to facilitate their goals and aspirations. Whether work or volunteer related, we promote a balanced approach to personal development by encouraging a well-rounded experience.

David set a goal to secure paid employment. He has been working hard at his placement to build the skills, and experience, he needs to achieve his goal.

Our Mission: To support the aspirations of individuals living with a disability
